

مقالات پذیرفته شده به صورت پوستر

سه شنبه ۱۴ مهرماه ۱۳۸۸

11: 30 -16

Study on anti-inflammatory effects of silymarin on U.V irradiated	سید شمس الدین اطهاری	۱
Screening Iranian H. pylori infected population by using a serological method	طیبه کریمی	۲
Seroepidemiology of Helicobacter pylori among people with clinical signs of peptic ulcer	رحمان رادمهر	۳
The relationship between Multiple Sclerosis and Helicobacter pylori infection in Isfahan, Iran	مریم مستاجران	۴
Importance of molecular methods for species identification of leishmania isolates in clinical and experimental studies	حمید محمود زاده نیکناء	۵
Association of FC γ RIIIB(CD16) polymorphism with human brucellosis	زهرا حسینی خواه	۶
Effect of hydatid cyst fluid on TNF- α production by Balb/c mice peritoneal macrophages	پریسا امیرکلوانق	۷
Effect of Shark Liver Oil on Macrophages Responses against Candida albicans	منیره حاجی مرادی	۸
Seroepidemiology of H. pylori infection and its associated Risk factors in Kermanshah city in 2008	علی ملک شاهی مقدم	۹
Human herpesvirus-8 (HHV-8) sero-detection and HIV association in Kaposi's sarcoma (KS), non-KS tumors and non-neoplastic conditions	پرویز کوخائی	۱۰
Tanzanian malignant lymphomas: WHO classification, presentation, ploidy, proliferation and HIV/EBV associatio	فاطمه پاک	۱۱
The Toll-like receptor 2 Arg753Gln polymorphism is not associated with cutaneous leishmaniasis	سهیلا اژدری	۱۲
The survey between two IFA and ELISA methods in a seroepidemiology survey	ناهید پدرام	۱۳
Detection of Antinuclear Antibody by use of In-house ANA ELISA: comparison with Immunofluorescence assay and commercial ELISA kit.	طیبه فولادی	۱۴
Specific Human Recombinant Antibodies to PP150 of Human Cytomegalovirus for detection of HCMV infections.	دکتر فروغ نجات الهی	۱۵
Human Autoantibodies specific for neurotrophin receptors TrkA ,TrkB, AND TrkC protect against lethal Trypanosoma cruzi infection in mice	فرهاد مبینی راد	۱۶

Effects Of Probiotics In Decreasing The Pathogen Bacteria Growth, Intestine Microbial Flora Adjustment And Clinical Signs' Improvement In Experimental Acute Pancreatitis In Mice	اوا محسن زادگان	۱۷
Immunization of pDNA Vaccine containing Anti Rabies Cationic Lipids In Mice	اوا محسن زادگان	۱۸
Studying The Clinical Signs And Serumal Parameters In Allergic Reactions To A.SIMPLEX Contamination And Its Relation With Eating Chickens Which Were Fed With Fish Meal	اوا محسن زادگان	۱۹
Immunization Of Mouse And Guinea Pig Against Tuberculosis By A Subunit Vaccine Based On Fusion Protein Of 85B And ESAT-6 Antigens	محسن شادی مزدقانی	۲۰
Cloning,expression H.pylori oipA gene in proper vectors and approve of antigenic ,immunogenic it in order to component vaccine	مریم خراسانی	۲۱
Investigation of antitetanus antibody induction from Brucella abortus D-LPS conjugate to TT in versus purified tetanus toxoid	محمد رضا علی زمائی	۲۲
Epidemiologic review of effects resulted from vaccination in vaccinated people by Karaj health Center, during years of 1385-1387(2006-2008.)	یوسف خانی	۲۳
Biolog MicroPlate Diagnostic Kit as an Accurate Method for Identification of Aeromonas hydrophila	حسینعلی ساسان	۲۴
Evaluation of the Survival Rates of Tilapia Fish Orally Fed with Genetically Engineered Probiotic Lactococcus lactis359	حسینعلی ساسان	۲۵
Determination of immunity against mumps, measles and rubella viruses after one year and 4-6 years vaccination series of MMR vaccine in children referred to Ahvaz Abuzar Hospital Vaccination Clinic, 2007-2008	محسن علی سمیر	۲۶
Is BCG vaccine scar, necessary for confirmation of immunity against mycobacterium tuberculosis infection?	شیرین سیاح فر	۲۷
Characterization of role of signal peptidase Type I in Leishmania major by gene targeting	طاهره طاهری	۲۸
Detection of VIM metallo beta lactamase in Pseudomonas aeruginosa isolated from burn wounds	عباس جمالی	۲۹
Isolation of Legionella Pneumophila from zanzan waters square and evaluation the protective efficiency of its protein fraction in mice	یوسف مطهری نیا	۳۰
Application of LAMP Technique in diagnosis of Mycobacterium Tuberculosis complex	لیلا کهن	۳۱

Analysis of the Nontuberculous Mycobacteria (NTM) genome sequences by VNTR typing reveal new locuse for differentiation of Mycobacterium tuberculosis complex from NTM	فضه حیدری	۳۳
Determiration of <i>blaZ</i> gene carriage in clinical isolates of <i>staphylococcus aureus</i> by PCR	طاهره دادایی	۳۴
بررسی بیماری سل در مرکز بهداشت غرب اهواز در سال ۱۳۸۶	معصومه یحیوی	۳۵
Rapid standardized method for determiration of Mycobacterium tuberculosis drug susceptibility by use of mycolic acid analysis	فرهاد مبینی راد	۳۶
The prevalence rate of gongylonema pulchrum in slaughtered sheep at amol's abattoir	نصرالله واحدی	۳۷
Comparison cell surface hydrophobicity as virulence factor among ESBL-and non-ESBL-producing <i>Pseudomonas aeruginosa</i>	فاطمه نوروزی	۳۸
PCR-RFLP analysis of streptokinase gene in β -hemolytic streptococci isolates	امیر میرزایی	۳۹
OXA-type beta lactamase among Extended Spectrum B-lactamase <i>pseudomonas aeruginosa</i> in Milad hospital in Tehran and Ilam hospital	ابراهیم علیپور	۴۰
Resistance to First-Line Anti - tuberculosis Drugs of Mycobacterium tuberculosis isolated strains	سیدرضا مؤدب	۴۱
Study on nosocomial infections in Tabriz children hospital based on National Nosocomial Infections Surveillance system	شهرام عبدلی سلوکی	۴۲
The prevalence of Keratinophilic Fungi in the surround-Soil of Babol Medical University's hospitals and central organization	آرزو ابراهیمی طوری	۴۳
Determiration of antibiotics resistance patterns of bacteria isolated from dialyze and graft wards in Ekbatan hospital in Hamadan	رسول یوسفی مشعوف	۴۴
Evaluation of antibacterial effect of shell and seed ethanol extracts of <i>Punica granatum L.</i> on <i>Helicobacter pylori</i> and comparison by common antibiotics	حامد صفاری	۴۵
- Comparison of culture and PCR methods for detection of <i>Actinobacillus Actinomycetemcomitans</i> in periodontal patients	مریم رامز	۴۶
Purification of two antigens extracted from <i>Bordetella pertussis</i> as the potential candidates for production of an acellular vaccine	علی پوراحمدی	۴۷
Prevalence study of some pathogenic microorganism isolated in Macaroni samples	علی رافت اردستانی	۴۸
Prevalence and antimicrobial susceptibility patterns of bacteria isolated from blood cultures in Children Hospital , Tabriz	وجیهه شیخ علیزاده	۴۹
Seroepidimiolgy study of leptospirosis In Amol – Mazandaran Province- Iran by IFA method	مرجان خسروانی	۵۰
gram-positive bacteria from diabetic foot ulcers and antibiotic susceptibility profile of isolated strains from Taleghani Hospital in Tehran	آناهیتا دزفولیان	۵۱
The evaluation of contamination rate with <i>E.coli</i> , <i>Staphylococcus aureus</i> , <i>Listeria monocytogenesis</i> and <i>Salmonella Sp.</i> In handmade butters in Urmia city	نیما حسینی جزنی	۵۲

Molecular Characterization of a Heat Shock Protein 60KD gene in Dermatophyte Pathogen <i>Trichophyton rubrum</i>	دیوید یاشارال	۵۳
The Isolation Of Aerobic and Nonaerobic Bacteria From Conjunctivitis	فاطمه فلاح	۵۴
Prevalence of <i>Helicobacter pylori</i> infection by age group in asymptomatic patients	ایمان برهانی فر	۵۵
Evaluation of the prevalence and drug resistance of gram positive cocci isolated from out patients referred to the clinics of Tabriz University of Medical Sciences, Iran (2004-2008)	محمدحسین سروش برحقی	۵۶
Frequency of methicillin- resistant <i>Staphylococcus aureus</i> (MRSA) in <i>Staphylococcus aureus</i> isolates from admitted patients in Shahid Motahari Burn Center in 2007	صادق منصوری	۵۷
Survey detection of <i>Legionella pneumophilla</i> from water samples in hospitals of khoram Abad (2008)	محمد هادی ذاکری	۵۸
بررسی آزمایشگاهی بیماران مبتلا به نایسریا گنورونه و سنجش میزان حساسیت دارویی آن	فاطمه فروهی	۵۹
Antimicrobial susceptibility profiles of Enterococci isolated from clinical specimens	یعقوب شریفی	۶۰
Evaluation of the Carbenoxolone disodium salt as a Heat shock protein inducer in reduction of lethality rate of <i>S.typhimurium</i> LPS in a murine model	مینا مهدی شیشوان	۶۱
<i>Helicobacter pylori</i> infection and colon cancer in northern Iran	محمد امین میری	۶۲
Prevalence of <i>Helicobacter pylori</i> infection by age group in asymptomatic patients	ایمان برهانی	۶۳
Detection of extended spectrum β -lactamases SHV & CTX-M in <i>Klebsiella pneumoniae</i> isolates from urinary tract infection by PCR	منصور رستگار	۶۴
Survey of bacterial contamination in Semnan restaurants meat foods.	علی جزایری مقدس	۶۵
Antibacterial activity of lactobacilli strains against some of digestive infections	بهاره بیگدلی	۶۶
Survey and Comparative Bacterial Spread Pattern in Staff Hands and High and Low Contact Hospital Surfaces (ALZAHRA Hospital-Isfahan/1384-85)	شیلا جلال پور	۶۷
Survey Antibiotics Resistance in <i>Bacillus cereus</i> strains Isolated Staff Hands and Hospital Surfaces	شیلا جلال پور	۶۸
Survey Inhibition role of Surface-layer into Introduction β -lactam Antibiotics in <i>Bacillus cereus</i> Strains Isolated of Environmental and staff hand	شیلا جلال پور	۶۹
Study Prevalence Nano Structure S-layer and β -lactamase in <i>Bacillus cereus</i> st.	شیلا جلال پور	۷۰
Identity Parasites by Nematodes Some Species of Cyprinidae in the Karun River Habital Confine Ahwaz City and Clinical Effects on the Human	نرسی نصیر آبادی	۷۱
Frequency of latent tuberculosis infection and active pulmonary tuberculosis in diabetic patients referred to diabetes center in Hamedan	سید حمید هاشمی	۷۲
Frequency of <i>Staphylococcus aureus</i> species and trends for their anti microbial resistance in clinical samples of patients in Hamedan	سید حمید هاشمی	۷۳

Molecular Epidemiology of <i>Staphylococcus aureus</i> in Food Samples Based on Protein A Gene Polymorphic Region DNA Sequence	زهره صالحی پور	۷۴
The prevalence of G6PD deficiency in septic neonates, the Hospital Affiliated Shiraz University of Medical Sciences, 2007-2008	نرجس پیشوا	۷۵
Detection of frequency of the <i>Coagulase Positive Staphylococcus</i> in septicemia and their drug sensitivity pattern	مهدی نیک روان	۷۶
26A survey on Bacterial isolates from burn wound infections and their antibiograms: A one-year	ابراهیم علیپور	۷۷
<i>Recognition of bacterial elements that cause liver abscesses in cows, in Tabriz area.</i>	عارف علی نسب	۷۸
Significant association between <i>Helicobacter pylori</i> infection and plasma high sensitivity C-reactive protein in Cardiac Syndrome X patients	یوسف رسمی	۷۹
Study of infection frequency of lungs and mediastinal lymph nodes in caseous lymphadenitis in sheep	فریدون رضازاده	۸۰
M protein typing of group A streptococcal isolates by PCR-Restriction fragment length polymorphism analysis	امیر میرزایی	۸۱
A Study on the contamination of <i>salmonella</i> in native hen's eggs and industrial hen's eggs in Maragheh, East Azarbaijan province	مهدی حامی	۸۲
An Evaluation of bacterial contamination of traditional butters prepared from cow and buffalo milk in East Azarbaijan province	مهدی حامی	۸۳
A survey on prevalence of infectious agents in cattle slaughtered in Urmia and their role in public health	مهدی حامی	۸۴
Role of the dog as a reservoir host of <i>Leishmania</i> (14,1)	مانلی انصاری مود	۸۵
Survey of urinary tract infection Prevalence in pregnant women and the resistance of the segregated bacteria against antibiotics in Al-Zahra Hospital in Rasht during 1376-86	لیلا فرهادی طولی	۸۶
Isolation of <i>Salmonella</i> from chicken carcasses of marketed Najafabad, Isfahan	بیژن شمس	۸۷
Screening Iranian <i>H. pylori</i> infected population by using a serological method	زینب کریمی	۸۸
Study of ESBL producing <i>klebsiella pneumoniae</i> isolated from clinical isolate of Tehran's hospitals	الهام رستمی	۸۹
Investigation of the antibacterial effect of venom of the Iranian snake <i>Cerastes cerastes</i>	بهروز فتحی	۹۰
