

## مقالات پذیرفته شده به صورت پوستر

چهارشنبه ۱۵ مهرماه ۱۳۸۸ - ۳۰ - ۱۱: ۸

Identification of <i>Cladosporium porophorum</i> isolated from a case of disseminated mucocutaneous phaeohyphomycosis by PCR sequencing	محسن گرامی شعار	۱
A review on invasive aspergillosis in patients admitted to Intensive Care Unit	صادق خداویسی	۲
Mycetoma in Iran; A systematic review of the literatures	طاهره شکوهی	۳
Fungal prevalence infections in patients of special clinic mycology laboratory Of Gaem hospital in Mashhad	منیره مختاری امجدی	۴
Prevalence of fungal agents of otomycosis in Ahwaz city	عبداله رفیعی	۵
Study of Fungal Rhinosinusitis in patients with refractory chronic rhinosinusitis from Sari city	مجتبی باهوش	۶
Anti bacterial activity of the fixatores of educational cadavers	آرزو بزرگ امید	۷
The frequency of pityriasis versicolor in Ahvaz, Iran	علی زارعی محمود آبادی	۸
Lamisil ear drop, a new preparation antifungal for otomycosis treatment	علی زارعی محمود آبادی	۹
Isolation fungi from urine and dialysis filter in hemodialysis patients in dialysis centers	علی زارعی محمود آبادی	۱۰
Evaluation of antifungal activity alcoholic extract <i>Crataegus pentagyana</i> and <i>Taxus baccata</i> on <i>Candida utilis</i> growth inhibition in vitro	مریم رودباری	۱۱
Identification of <i>Aspergillus</i> species isolated from clinical and environmental specimens	عاطفه نمکی	۱۲
Searching dimorphic of fungi in the soil of Qazvin city MR. Aghamirian	محمد رضا آقامیریان	۱۳
Survey of tinea gladiatorum in wrestlers and dermatophyte contamination of wrestling mats from Qazvin, Iran	محمد رضا آقامیریان	۱۴
Occurance of mould in drinking water of hospitals in Sari city 2008-2009	صبح میاهی	۱۵
Prevalence of Fungal agents causing Dermatomycoses among the patients referring to health care centers of Uromia	شهلا خشاوه	۱۶
Identification and Genotype Variation In Clinical Isolates of <i>Candida</i> by RAPD-PCR Analysis	محمود وحیدی	۱۷
Investigation and comparing mycoflora of the Psoriatic dermal surface and healthy human	محمد علی اسدی	۱۸
comparison of effect of Isopropil alcohol 70%(90cc)+Acid Acetic2%(10cc)with Clotrimazol in Otomycosis treatment	محمد علی اسدی	۱۹
the survey on influence of chemical and herbal antiseptics against the pathogen and opportunistic fungi	محمد علی اسدی	۲۰

Antifungal effects of <i>Allium sativum</i> in combination with some azoles against pathogenic yeasts	معصومه شمس قهفرخی	۲۱
Comparison the combination effect of Nystatin and Floconazole, with tissue conditioner on the <i>in vitro</i> attachment and colonization of <i>candida albicans</i>	عباس علی جعفری ندوشن	۲۲
Nanosilver has a Powerful Potential against the growth of Dermatophytes	سیده سمیه نکوئی اصل	۲۳
The effect of ketoconazole %2 solution in comparison with ketoconazole %2 shampoo on clinical signs and <i>Malassezia</i> yeasts in seborrhoeic dermatitis patients	محمدتقی هدایتی	۲۴
Survey of Antifungal effects of Razak ( <i>Humulus Lupulus</i> Plant) on <i>Fusarium</i> sp. , <i>penicillum</i> sp. and <i>Aspergillus</i> sp. using of Invitro method.	آیت الله نصر الهی عمران	۲۵
Prevalence of intestinal parasitic infections and their relation with Risk factors in zanjan Kindergartens children	حجت اله شکری	۲۶
Survey the frequency of oral candidiasis in denture users referred to Yazd school of dentistry.	محمدرضا پهلون زاده	۲۷
The MIC of Different Formulations of Nanosilver is lower than Ketoconazole	سیدامین آیت الهی موسوی	۲۸
Molecular Characterization, Separable And Structure Determining of a Heat Shock Proteins 60KD gene in Dermatophyte Pathogen <i>Microsporom canis</i>	آریو جهانگیرزاده	۲۹
Isolation and identification of Yeast species isolated from catheterized patients using PCR-RFLP	محمد قهری	۳۰
Clinical significance of <i>Malassezia</i> in acne	علیرضا کلارستانی	۳۱
Evaluation of antifungal activity alcoholic extract <i>Crataegus pentagyana</i> and <i>Taxus baccata</i> on <i>Candida utilis</i> growth inhibition <i>in vitro</i> .	مجتبی تقی زاده ارمکی	۳۲
Comparison of diagnostic methods in the evaluation of onychomycosis in patient referred to Boali Sina Hospital and Toba dermatology outpatient clinics, Sari	ایمان حقانی	۳۳
Causative Agents and Clinical Patterns of Onychomycosis in Sari	ایمان حقانی	۳۴
Evaluation of antifungal activity alcoholic extract <i>Crataegus pentagyana</i> and <i>Taxus baccata</i> on <i>Candida utilis</i> growth inhibition <i>in vitro</i>	شهلا رودبار محمدی	۳۵
Isolation and identification of Yeast species isolated from catheterized patients using PCR-RFLP	محمد قهری	۳۶
Evaluation of direct agglutination test and its comparison with conventional methods in diagnosis of vulvovaginal candidiasis	حجت الله شکری	۳۷
Evaluation of antifungal susceptibility of <i>Candida</i> species isolated from patients with acute and chronic vaginitis to antifungal drugs and some herbal essences	حجت اله شکری	۳۸
Serum (1-3)-B-D-Glucan detection (G-test) is not a diagnostic Adjunct for invasive fungal infections	محمد کریمی	۳۹
A review on invasive aspergillosis in patients admitted to Intensive Care Unit	صادق خسروی	۴۰
Rapid detection of Triazole antifungal resistance in <i>Aspergillus fumigatus</i>	فرهاد مبینی راد	۴۱

In vitro survey of triazole cross-resistance among more than 700 clinical isolates of <i>Aspergillus</i> species	فرهاد مبینی راد	۴۲
Study the effects of increase PH rates on HSP <sup>V</sup> gene in dermatophyte Pathogens <i>Trichophyton rubrum</i> & <i>Microsporeum canis</i>	سیما دارابیان	۴۳
- Study the antifungal effects of some monoterpenes against pathogenic yeasts	سولماز میرزا محمدی	۴۴
Modification of Roche RNA Extraction Method from Formalin Fixed Paraffin Embedded Lymphoid Tissue with Special Application for Virological Studies	آرش شکیب زاده	۴۵
Antibacterial activity of <i>Punica granatum</i> extract against bacteria isolated from infected burn wounds and comparison with selective antibiotics In-vitro	آنا فراهانچی	۴۶
study of <i>Salmonella enteritidis</i> prevalence and antibiotic Resistance Patterns in Patients referred to Children's Medical Centers	فاطمه فرد صانعی	۴۷
Antibacterial activity of lactobacilli strains against some of digestive infections	بهاره بیگدلی	۴۸
Evaluation of <i>Pseudomonas aeruginosa</i> isolated from cutaneous infections and determination of drug resistance pattern in patients of Alzahra hospital in Esfahan	سید اصغر هوائی	۴۹
Prevalence study of cattle bacterial abortion in Miandoab and suburbs in 1386-1387	امیرعلی گلزاری فرد	۵۰
Effect of <i>L. casei</i> , <i>L. acidophilus</i> and <i>L. plantarum</i> on <i>E. coli</i> during associated growth in apple juice	بهمن خلوتی فهلیانی	۵۱
Growth inhibition effect of Nano-silver colloidal solution in <i>Staphylococcus aureus</i>	هانیه سادات ذوالفقاری	۵۲
The study of inhibitory effects of probiotic bifidobacterial strains on some human pathogenic bacteria	هانیه سادات ذوالفقاری	۵۳
Study on growth inhibition effects of silver nanoparticle's coated TiO <sub>2</sub> on <i>Ps. aerogenosa</i> and <i>S. aureus</i>	هانیه سادات ذوالفقاری	۵۴
Investigation of TLMV spread frequency in healthy persons and comparison	مجید کمیجانی	۵۵
Prevalence of <i>Helicobacter pylori</i> in the Southeast of Iran	محمد احمدی نژاد	۵۶
Oxidative Damages of Bacteria Growth	پرینا صدیق آرا	۵۷
- Relationship between periodontopathogen bacteria and herpesviruses in chronic periodontitis.	مریم چلبی	۵۸
Genetic evaluation of relationship between mutations in <i>rpoB</i> and resistance of <i>Mycobacterium tuberculosis</i> to rifampin	محسن خارکوهی	۵۹
Epidemiology Rotavirus in water sources in north provinces in Iran, 2004-2005	سمیرا وزیری	۶۰
Determination of <i>blaCTX-M-II</i> gene in <i>klebsiella pneumoniae</i> isolated from clinical specimens	شعیب نعمت زاده	۶۱
A consideration of fecal streptococcus contamination of hamburgers & sausages presented in Tbariz market in 2008	ستار اکبری نخجوانی	۶۲
The effect of fermented milk on several doses <i>Escherichia coli</i> O <sub>157</sub> :H <sub>7</sub> infection in mice	ستار اکبری نخجوانی	۶۳
Study of antibiotic residue in edible tissue of slaughtered poultry in Tabriz abattoirs by FPT method	ستار اکبری نخجوانی	۶۴

Effect of grilling process on antibiotic residues in muscle of rainbow trout by FPT method	ستار اکبری نخجوانی	۶۵
The consideration of effect of honey on the growth of probiotic bacteria <i>Lactobacillus acidophilus</i> and <i>Bifidobacterium bifidum</i> in the milk and yoghurt	محمد حسین مرحمتی زاده	۶۶
Isolation and characteristic distribution pattern of <i>cagA+</i> <i>Helicobacter pylori</i> in dental plaque of dyspeptic patients	مونا کربلایی	۶۷
The prevalence of Bacteremia among Hospitalized Cancer Patients and Antimicrobial Susceptibility Pattern of Isolates in Kerman- 2009	الهام غفوری	۶۸
Evaluation of frequency of asymptomatic bacteriuria in elderly institutionalized in Abadan Taleghani hospital	احمد فرج زاده شیخ	۶۹
Bacterial contamination in traditional ice-creams in Kermanshah province during 2008	علیسا اکیا	۷۰
Causative agents and antimicrobial susceptibilities of urinary tract infections of outpatients referred to Vijah Clinic in Kermanshah (2008 – 2009)	علیسا اکیا	۷۱
biogram and examination of lipase activity in clinical isolates of <i>domonas aeruginosa</i>	مرجان رشیدان	۷۲
Detection of Enterohaemorrhagic <i>E.coli</i> (EHEC) strains in diarrheal specimens originated from under 5 year old children by PCR technique and study of the patterns of antibiotic resistance	ابوالفضل اکبری	۷۳
Application of Multiplex PCR in detection of <i>Chlamydia pneumoniae</i> and <i>Mycoplasma pneumoniae</i> In Asthma patients	حبیب ضیغمی	۷۴
- Using multiplex PCR Method for diagnosis of <i>Citrobacter frandii</i> and <i>salmonella typhi</i>	آیدا کراچی	۷۵
MEASURING CHANGE OF IL-12 AND TNF ALPHA BY WHOLE BLOOD CULTURE IN TUBERCLOSIS PATIENTS AFTER TREATMENT	آیدا کراچی	۷۶
Investigation of Seroepidemiology and diagnosis of <i>Brucellosis</i> in suspicious patients by Immuno capture. Technique in Mousavi Hospital of Zanzan Province.	مسعود محمدیان	۷۷
Detection of bacterial mastitis factors in dairy cows	هادی ذاکری	۷۸
Biological control of actinomycetes isolates on some human bacterial pathogens	اشرف کرمی نیک	۷۹
Influence of microwave radiation on some pathogenic and causing food poisoning bacteria	آرتا دخت توکلی	۸۰
Isolation of methicillin resistant <i>Staphylococcus aureus</i> from boils and determination of their antimicrobial sensitivity	مجید باصری صالحی	۸۱
<i>Ratus rats</i> as reservoir of antibacterial resistant Enteric bacteria	ندا سلیمانی	۸۲
Analysis of the antibacterial effects of <i>Capsicum spp</i> extract on the strains of multi-resistant <i>Staphylococcus aureus</i>	مهرداد شریعتی	۸۳
Isolation of Methicilin resistant <i>Staphylococcus aureus</i> strains from clinical samples and determination of their resistance origin	حسین معتمدی	۸۴
Evaluation of Anti- <i>Toxoplasma gondii</i> antibodies in haemodialysis patients referring to Jahrom haemodialysis unit	کاووس صلح جو	۸۵
Environmental Monitoring Of Controlled Area: An Important Factor in Pharmaceutical Products (During one year in Pasteur Institute of Iran 1386)	مریم صلح	۸۶

The evaluation of antibiotic sensitivity of oxalate degrading lactobacillus in the formation of kidney stone	روحی افکاری	۸۷
Composition, cytotoxic, antioxidant and antimicrobial activity of essential oils of <i>Heracleum pastinacifolium</i> and <i>persicum</i> from Iran	مریم غلامی	۸۸
Inactivation of <i>Salmonella</i> and <i>E. coli</i> in phosphate-buffered saline and apple juice by ultraviolet and heat treatments	مهدی حمداله زاده	۸۹
Evaluation of prevalence of Vancomycin Resistant Staphylococci in Kashan Hospitals University during 2004-2005	احمد خورشیدی	۹۰
